

RCA BK5B

Ribbon, cardioid.

Description:

The RCA Type BK-5A Uniaxial Microphone is a dependable, high-quality ribbon instrument possessing an improved unidirectional characteristic, and is designed for broadcast use in AM, FM, and TV stations. The microphone has a frequency response that is essentially uniform from 50 to 15,000 cycles. Its excellent response and frequency range, combined with its unexcelled cardioidal directional characteristic, makes it ideal for reproducing both speech and music.

Applications:

Used as a boom mic, suitable for anything that needs a wide flat response.
